MEMORANDUM FOR: Chief, Material Staff, DPD-DD/P

SUBJECT : System IV Test Set, MF-12415

25X1A

1. It is requested that the various components for the System IV Test Set, in accordance with the attached equipment list 00, dated 12 June 1958, be collected and retained at [] with the other System IV components in storage at the depot.

2. The background for the above request is as follows:

25X1A

A. When the decision was made to operationally deactivate System IV, it was agreed that the entire system would be stored together so that it could be re-activated on short notice.

25X1A

B. [] was instructed to accomplish the above by [] 0804 (OUT 67370), dated 25 May 1960. [] 2422 (OUT 70185), dated 2 August 1960 requested shipment via C-124 MATS-AAM-44. [] 6066 (IN 30513), dated 10 August 1960 reported 58 boxes of System IV shipped to []

25X1A

25X1A

25X1A

25X1A

C. Most of the items comprising the test set are in general stock at [] They have lost their identity as a part of the System IV, thus obviating any possibility of rapidly assembling the system which was a major premise in the deactivation of the system.

3. Please advise the Communications Staff when all components of the test set have been assembled.
